Notes

When I bought the car it was 6 months old. I've been using it ever since. The four-wheel brakes were newly changed and the complete maintenance was done at the jeep service. 4 wheel shock absorbers have just been changed. Four tires just changed, Michelin four seasons. There are no accidents or malfunctions. At only 86000 km. It was used very little. The car looks like brand new. Please serious buyers write. Anyone can see it. The car doesn't need anything. Just buy it and continue using it until the next maintenance.
